

GNSO POLICY DEVELOPMENT UPDATE

ISSUE

Protection of Certain International Organization Names in *all* gTLDs

UPCOMING IMPORTANT DATES: Public Comment Forum on Working Group Initial Report and proposed policy recommendation options open until 17 July 2013.

SUMMARY

The GNSO Council has initiated a policy development process (PDP) to evaluate the need for, and develop policy recommendations to provide additional permanent special protections at the top and second level in *all* gTLDs for the names and acronyms of certain International Government Organizations (IGOs) and International Non-Government Organizations (INGOs), including the International Committee of the Red Cross, the International Federation of Red Cross and Red Crescent Societies and the American Red Cross (collectively, the “RCRC”) and the International Olympic Committee (“IOC”). The PDP Working Group (WG) is continuing its deliberations on considering possible permanent protections for the IOC and RCRC names in all gTLDs,¹ as well as additional special protections in all gTLDs for the names of IGOs and other INGOs that are protected by international treaties and national laws in multiple jurisdictions. The GAC has provided formal advice to the Board and also engaged the GNSO with regard to these issues.² After considering specific issues outlined in its charter, including an evaluation of the existing scope of legal protection for the names of IGOs and INGOs under international law, the WG is currently considering proposals to protect IGO, IOC and RCRC names including those which are consistent with the GAC advice. The WG published its Initial Report for public comment on 14 June. The Report includes and solicits public comments on policy recommendation options currently being considered by the WG for any necessary additional special protections for the names of certain IGOs and INGOs.

GAC ENGAGEMENT OPPORTUNITY STATUS

The WG is open to all interested parties. Additional opportunities for input will occur such as outreach from the WG to the different SO/ACs for input as well as the publication of the Initial Report for public comment.

INITIAL REPORT
