134.1 Get to Know ICANN for Business

This course is designed for private sector stakeholders to learn more about ICANN's efforts in Global Business Engagement. In this course, you will learn how ICANN engages with the business sector, how an open and interoperable Internet affects them, how to keep informed about ICANN's work and how to get involved and proactively participate in Internet governance and policymaking. ... Progressing Through a Course

The screenshot shows a course interface with a dark teal header. The header text reads "Onboarding: Governmental Advisory Committee (GAC)" and "ICANN|LEARN". Below the header, a progress bar indicates "17% COMPLETE". A sidebar menu on the left lists the course sections: "Introduction" (checked), "Governmental Advisory Committee", "GAC Membership, Leadership, and Staff Support", "Working Groups", "ICANN Meetings", and "Conclusion".

Course Objectives

- Explain the role and function of the Government Advisory Committee (GAC) in the ICANN ecosystem
- Introduce the working groups in the GAC
- Inform learners about the role of GAC Advice to the ICANN Board
- Explain the purpose and operation of the Policy Development Processes (PDPs) within the GAC
- Provides details about where to get more information about the GAC and its activities
- Describe how to participate in the GAC and its Policy Development Processes

Learning Outcomes

- Understand what the GAC is and what it does
- Explain the role of the GAC and GAC working groups
- Identify sources of information to stay updated on GAC news and activities
- Understand where and how to get involved with the GAC and its Policy Development Processes

GAC Under-served Regions Working Group	+
GAC Working Group to Examine the Protection of Geographic Names in Any Future Expansion of gTLDs	-
<p>Country and territory names and acronyms are already afforded protections in ICANN's Applicant Guidebook for new gTLDs. In light of experience with the last round of new gTLD applications, GAC members have raised concerns about the lack of protection of other names of geographic significance.</p> <p>The Working Group on the Protections of Geographic Names was established in 2015 to examine how to improve the protections offered to geographic names in any future expansion of generic Top Level Domains (gTLDs).</p> <p>The working group is currently refining a draft Best Practices proposal which sets out some high level principles that may be applicable to names or acronyms with geographic significance.</p> <p>The working group Chair is Olga Cavalli (Argentina).</p> <p>The working group's Terms of Reference, membership and proceedings to date are available here: https://gac.icann.org/working-group/gac-working-group-to-examine-the-protection-of-geographic-names-in-any-future-expansion-of-gtlds.</p>

130.2 Séminaires en ligne de renforcement des capacités d'At-Large 2014-2017

Le groupe de travail sur le renforcement des capacités d'At-Large a sélectionné les thèmes de ses séminaires en ligne : les meilleures pratiques de participation à l'ICANN et à l'At-Large, les mises à jour sur des politiques spécifiques telles que la révision de la concurrence, du choix du consommateur et de la confiance du consommateur, la délégation et la redélégation des ccTLD avant et après la transition de l'IANA, et les responsabilités des bureaux d'enregistrement en matière de développement des nouveaux gTLD. Les séminaires en ligne comprennent des jeux-questionnaires... **Plus** ▼

102.1 Introduction to ICANN

This course will teach you about what ICANN is, what it does and how you can get involved. There is a discussion forum where you can engage with your classmates, pose questions to the ICANN staff, and leave comments.

This course is designed for those with all levels of knowledge about ICANN. It contains a beginning level of information about ICANN but can be a useful refresher course. Feel free to recommend additional topics for future lessons... **More** ▾
