ICANN services available to address government concerns

ICANN services available to address government concerns

Monitoring

- ⦿ Table provide by OCTO to GE
- ⦿ GE to provide to GAC members relevant information related to registrations at the second level

Addressing confusion:

- ⦿ **First**, report this conduct to, and seek an investigation from the appropriate registry operator
- ⦿ In case a concerned government believes that such report was not addressed appropriately, the next step would be to lodge a complaint with ICANN's Contractual compliance function.
